

# The natural choice for control room services

## A hive of activity

### Our national communications centre

Based in central London and handling over 7,000 calls a week, First Security's communications hub is in constant contact with our clients, management team and security officers on the frontline. This central support enables us to offer you:

- 24/7 nationwide support and management
- Temporary security and management at a moment's notice
- Deploy additional management for sites in need of urgent support and cover
- Hourly checks to lone security officers
- Instant SMS messaging to alert you of local incidents
- Mobile patrols performing regular checks
- Secure key holding service

### Additional value adding support:

- Business continuity planning
- CCTV installation and maintenance, including remote monitoring and visual verification
- Covert security operatives and store detectives
- Executive protection services
- GPS tracking and control of vehicles
- Retail and supply chain loss prevention support
- Security consultancy
- Specialist security installations
- Surveillance and counter surveillance services
- Training and development for client security teams
