

# The natural choice for events and emergency response

## Agile and ready to respond

### Short term staff

If you need short term cover, or additional staff for an event First Security can provide you with the services you need:

- Crowd control
- Door supervision
- VIP security
- Close protection
- Emergency response

### Security for events

We have a thorough approach to providing security officers for events:

- We'll visit the venue and complete all the risk and health and safety assessments for you
- We regularly schedule and dispatch relief cover
- We only use trained officers with event experience and SIA licences
- For licensed events, we provide qualified door supervisors

### Emergency response

We have highly experienced teams of officers on hand to provide you with security at short notice. The team is coordinated and controlled by our National Communications Centre. They are trained to the highest standards, and regularly undergo update training in the latest procedures and practices.
